

TERMITE + PEST CONTROL

A Full Service Pest Control Company

Preparations for Ant/Roach Service

1. All people and pets must be gone for four hours after treatment. If you have a fish tank, cover it with a damp towel.
2. Remove all items from the kitchen cabinets, cupboards, and drawers. These items can be placed on the kitchen table or in a chair, etc. The shelves and drawers should be washed thoroughly.
3. Remove all items from the bathroom cabinets, drawers, and linen closets. These items can be placed in the bathtub or shower.
4. Cover items removed from cabinets and drawers with a sheet or towel.
5. Vacuum the entire unit thoroughly.
6. After cupboards have been treated, DO NOT wash the product off. This will help protect against future infestation.

**The above are the unusual instructions and are the usual problem areas for these types of pest. If you have an infestation in a unique area or some other problem exist, please make sure to let the pest control technician know when they arrive onsite so they may also treat those areas. If you have any questions regarding treatment, please give us a call. We will be happy to answer any questions.

Thank you for your cooperation.

PREPARATION IS VITAL TO THE SUCCESS OF THIS TREATMENT. WE STRESS THE IMPORTANCE OF PROPER PREPARATION.
