

## Notification and Warnings Descriptions Gas Shutoff Form

### TERMITE + PEST CONTROL

A Full Service Pest Control Company

Please sign and return, this must be returned at least (4) days prior to the scheduled fumigation date.

As part of the fumigation process, the natural gas service running to your building must be turned off. This requires that the gas company disconnect the pipe at the gas main and plug the line. Our fumigation company will arrange to have the gas turned off one working day prior to the scheduled fumigation or the morning of the scheduled fumigation. For arranging the shut off, we require the following information.

**Name on gas company account:** \_\_\_\_\_

**Property address:** \_\_\_\_\_

**Location of gas meter:** \_\_\_\_\_

**Enclosures, gates, dogs:** \_\_\_\_\_

If your gas main is inaccessible for any reason (such as a dog in the backyard, locked gate, gated community, etc.) you must make arrangements to eliminate these impeding factors the day the gas shut off is scheduled. If you do not, the gas company will not shut off your service and the fumigation will need to be rescheduled and you will be assessed a cancellation fee of \$150. Also, please do not attempt to reset a scheduled shut off date arranged by our fumigation company. They perform multiple jobs every day; scheduling the shut off one day prior is a necessity to ensure your fumigation goes as scheduled.

You must arrange to have gas service restored. To schedule restoration of service, contact the gas company that services your area at the number below. Notification must be made at least 24 hours in advance of desired service. You will need to be present at the property to provide access to the interior of your home and will need to show the gas company technician the notice of re-entry that is left at the entrance to your property once the fumigation is complete. You may schedule your appointment with the gas company for the same day your property is cleared; simply request a PM appointment.

<b>Southern California Gas Company</b>	800-427-2200
<b>Long Beach Gas Department</b>	562-570-5700
<b>San Diego Gas and Electric</b>	800-413-7343
<b>Southwest Gas Company (high desert)</b>	760-241-9321

I have read and understand the above:
