

Preparations for Mite Service

TERMITE + PEST CONTROL

A Full Service Pest Control Company

In preparation for your bird mite treatment:

1. **In all rooms that you are experiencing the bird mite problem;** all items must be removed from the floor excluding furniture.
2. Strip all linens (sheets, blankets, etc) from all beds and stand mattress on its side against the wall.
3. Remove all items from under beds.
4. ALL clothing must be removed from dressers and closets and either laundered or put in the dryer for 15-20 minutes at a minimum temperature of 120°. You must also wash all linens.
5. Vacuum carpeted areas, sweep & mop floors, clean all window sills.
6. People and pets must exit the home for 4hours after application along with pets.
7. Upon reentering your unit you will need to vacuum all carpeted areas, sweep & mop floors, clean window sills, clean surface of furniture.
